- [Choose Download Settings](#)
- [Choose Advanced Settings](#)
- [Search for Videos](#)
- [Advanced Download](#)
- [Start Downloading Video](#)
- [Check Download History](#)

Choose Download Settings

Click the Setting button on the upper right corner to customize the video quality (High, Medium, Low), subtitle language, subtitle format (Original, SRT), and output path.

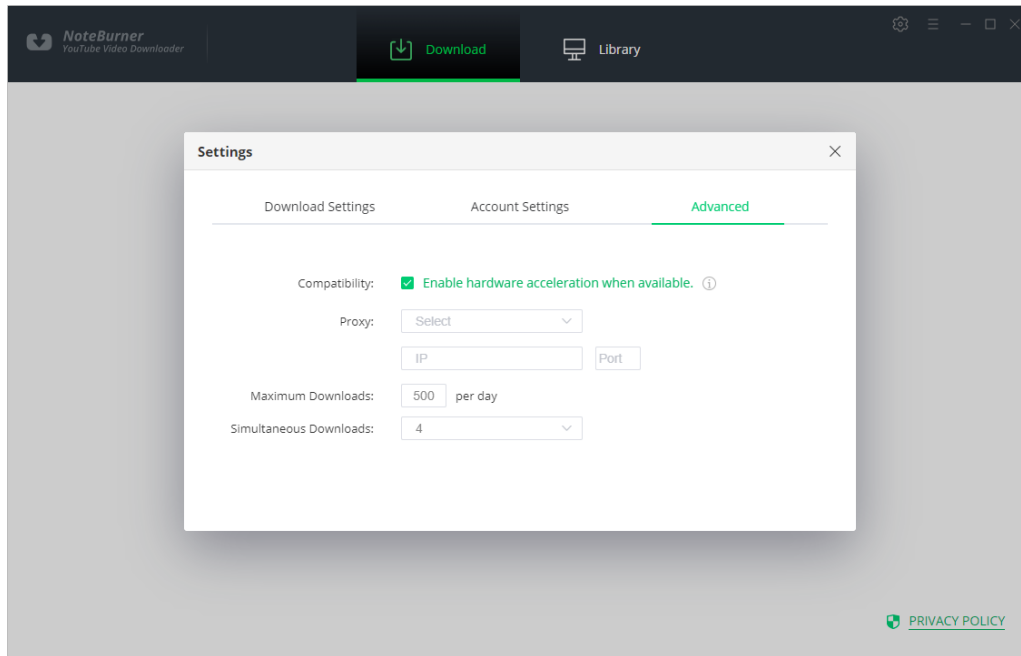

Choose Advanced Settings

In the setting window, you can also customize the proxy, maximum downloads, and simultaneous downloads as you prefer.

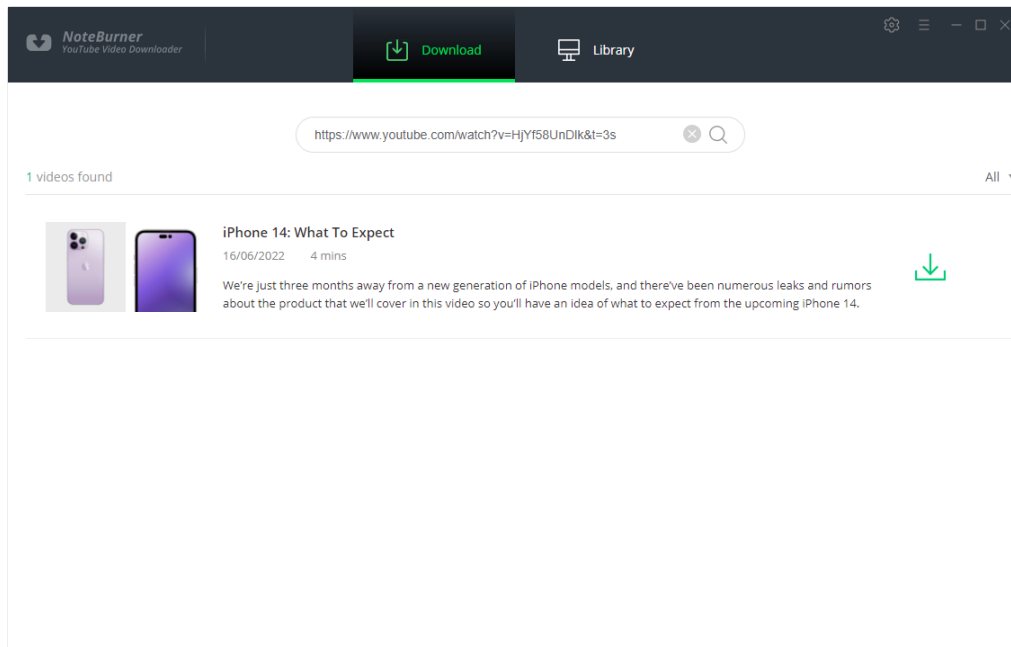

NoteBurner YouTube Video Downloader for Windows

Search for Videos

NoteBurner YouTube Video Downloader applies with a new type of searching mechanism, which will enable users to add videos by **copying & pasting the link from YouTube**.

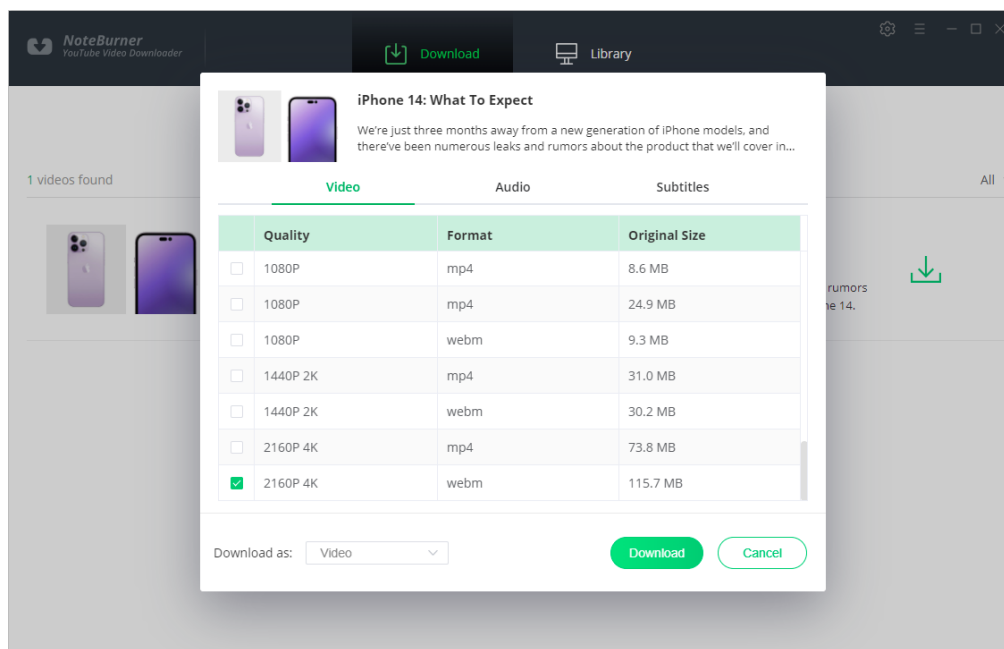

Advanced Download

The program will list all download options in the "Advanced Download" window. All you need to do is tap the  icon, which is next to the Download icon, followed that a window will pop up allowing you to select the corresponding video or audio in different output format & quality.

If you want to download a video, you need to choose Download as Video in the bottom left corner. Also, you can select the audio and subtitle options in their corresponding columns. If you want to download an audio file, you can choose Download as Audio. You cannot select options in the Video and Subtitle columns. NoteBurner also allows you to download subtitles as separate files. To do that, simply choose Download as Subtitles.

Tips about The Video Quality and Format

Video Quality: NoteBurner YouTube Video Downloader can grab videos up to 8K (4320P) in quality. Of course, the quality option is dependent on that of the original uploaded video. If the video was recorded and uploaded in standard definition, it won't be available to download in high definition. And please note that, larger resolution videos will dramatically increase file size and then extend the download time.

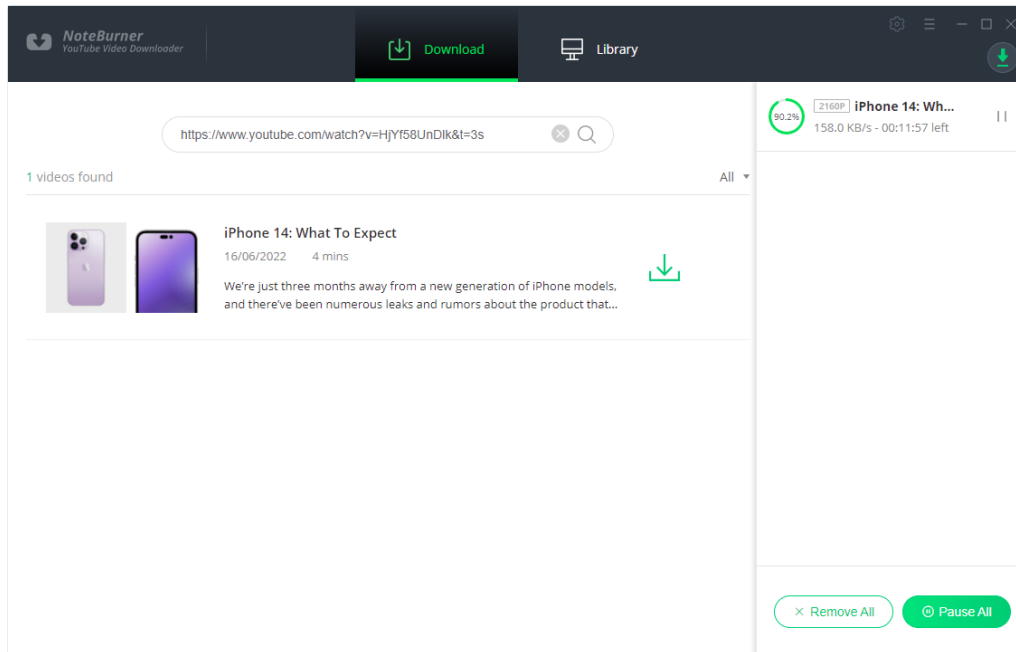

Format: The most common format of YouTube video is MP4 with AAC audio codec. NoteBurner definitely supports downloading the video in MP4 format and extracting audio in AAC format. Plus, video format "MKV" and audio format "WebM" are both supported.

NoteBurner YouTube Video Downloader for Windows

Start Downloading Video

After completing the above steps, now the final step is clicking the download icon to start downloading the video to the output folder you've chosen in the previous step.

Check Download History

Once the download is done, you can find the downloaded video in MP4/MKV format or the downloaded music in WebM format by clicking the "Library" button or just opening the output folder.

NoteBurner YouTube Video Downloader for Windows

The screenshot shows the NoteBurner YouTube Video Downloader application interface. The top bar is dark with the NoteBurner logo and name on the left, and 'Download' and 'Library' tabs in the center. The 'Library' tab is active. On the right side of the top bar, there are icons for settings, a menu, and window controls. Below the top bar, there is a search bar and a filter icon. The main content area is divided into a left sidebar and a main list. The sidebar has a header 'All Downloaded (3)' and a list of filters: 'Today (1)', 'Recently 7 days (2)', 'Latest 30 days (2)', '2022-10 (1)', and '2022-6 (1)'. The 'Today (1)' filter is selected. The main list shows one video entry: 'iPhone 14: What To Expect' with a video thumbnail, a duration of '4 mins', and a size of '120.0 MB'.

Filter	Count
Today	1
Recently 7 days	2
Latest 30 days	2
2022-10	1
2022-6	1

Video Title	Duration	Size
iPhone 14: What To Expect	4 mins	120.0 MB
